6 July 1953

Dear Doctor Glum:

I duly received your letter of several weeks ago and have looked into the question which you have presented to me. I understand that your application has been received and is being given very careful consideration. I trust that the action will be favorable but, as you know, it is handled by another branch of the Government. In any event, I believe they are actively following up the matter.

Faithfully yours,

Allen W. Dulles
Director

Professors Friedrich Thurn

Dear Mr. Duller,

In 1939 I had the great pleasure to be introduced to you and your wife in your home by Mr. and Mrs. Joseph Harnischman. (I stayed in their home at Long Island) In this home I was ministerial agent in the office of the Bavarian minister-president (Mr. Thurn engaged me in 1946. 1945 I was a German consultant in the office of General Clay in Berlin. I have been a long time director general of the Kaiser Wilhelm Society for scientific research in Berlin till 1938 the Nazis fired me out.) Now I am lecturing at the University of Munich about the western democracies and European constitutional history and made some trips to Great Britain and France to study the development of the political and social life in both countries after the war. In 1946 you and your wife expressed the wish I would come back to the States for a long time. This could be easily fulfilled.

MEMORANDUM FOR: MR. DULLES

With regard to the case of Johann Friedrich Glum, the following is learned from the Department of State.

On 23 June, a request was sent to Bonn for additional information about the purposes of Professor Glum's intended trip; a grant has not been made officially as yet, but seems likely; his case is before the Conference Board which screens such requests; a recommendation will be made in due course by this Board to the Board of Foreign Scholarships which makes the final decision. The length of time that this will take is uncertain but presumably will be decided during the summer as Professor Glum's trip, if made, would occur during the fall.

MEMORANDUM FOR: Mr. Dulles

Sometime ago you received the attached letter from Johann Friedrich Glum. Repeated inquiries at the State Department have finally elicited the answer that Dr. Glum's application has now been received. He is likely to get favorable consideration on both a Fulbright travelling fellowship and a Smith-Mundt maintenance fellowship. Final decisions are likely to be made in a few weeks and Dr. Glum will be notified by the State Department.

Dear Mr. Dulles,

In 1949 I had the great pleasure to be introduced to you and your wife in your house by Mr. and Mrs. Joseph Hamburghen. (I stayed in their house at Long Island.) In this time I was ministerial dirigent in the Office of the Bavarian Minister President (Mr. Hoegner ? engaged me in 1946. 1945 I was a German consultant in the office of General Clay in Berlin. I have been a long time director general of the Kaiser Wilhelm Society for scientific research in Berlin til 1937 the Nazis fired me out.) Now I am lecturing at the University of Munich about the Western democracies and European constitutional history and made now a trip to Great Britain and France to study the development of the political and social life in both countries after the war. In 1949 you and your wife expressed the wish I would come back to the States for a longer time. This could be easily fulfilled, because I have applicated for a Fulbright grant to stay quite a year in the United States wishing to write about the political life there something like the book of Alexis de Tocqueville *Democracie en Amerique*. I got the answer from Bad Goderberg that the US Educational Commission will recommend the application to the State Department in Washington. But I know there were some restraint because I have been in the States before on invitation of Military Government in 1949. But I was there only about 3 months and unfortunately from 15 of May to the end of July (not a very good time for studying the life in USA. I think, and not enough to write with sound authority about the States. And I wish so much to destroy all the nonsense the people in Germany are believing about the States and the Americans.

So if you could have a look into the division of the State Department which will handle the case, I should be very thankful. I should like to stay in different universities to see as much of the country as possible and to be some time in Washington. I could give when necessary some lectures about

German, British and French political development after the war, but I would not like to be engaged for a long time at one place. If the application would be approved by the State Department I should like to come over in October this year.

With very best regards to you and to your wife

I am sincerely yours

/s/ Friedrich Glum

My wife is the sister of Barbara Kempner. I enclose my Munich address. I shall stay at Paris til the 20th of May.

MEMORANDUM FOR MR. DULLES

You will be interested to learn that Dr. Friedrich Glum, who wrote you in connection with his application for a Fulbright grant, has been offered a joint Fulbright and Government maintenance grant for a period of study and travel in the United States not to exceed 300 days. The formal notification for Dr. Glum awaits his final security check by HICOG.

[REDACTED]

With regard to the case of Johann Friedrich GLUM, I have learned the following: that on 23 June a request was sent to Bonn for additional information about the purposes of his intended trip; that a grant has not been made officially as yet, but seems likely; that his case is before the Conference Board which screens such requests; that, from the Board, a recommendation will be made in due course to the Board of Foreign Scholarships which makes the final decision; and that the "due course" action date by the Conference Board is uncertain but presumably will be during the summer as the trip, if it is made, would be during this Fall.

The individual to be contacted for further information is Mr. McKnight at Ext. 2011 or 3319.
